Re: Application (File No. BPED-920413MF) of Brazos
Educational Radio for a new noncommercial
educational FM station in College Station, Texas

Dear Ms. Searcy:

Submitted herewith in triplicate on behalf of Brazos Educational Radio ("Brazos") are two amendments to its above-referenced application (File No. BPED-920413MF) for a construction permit for a new noncommercial educational FM station in College Station, Texas. One of these amendments reports certain changes in information in the application. The other is being filed in response to the letter (Ref. 1800B3-TDN), dated August 24, 1992, of Dennis Williams, Chief, FM Branch, advising Brazos of, inter alia, the need to submit statement concerning compliance with the Commission's rules and policies regarding potential exposure to radiofrequency radiation.

Please call me if you have any questions about either these matters.

Sincerely,

Harry F. Cole

Counsel for Brazos Educational
Radio

AMENDMENT

The Application (File No. BPED-920413MF) of Brazos Educational Radio is hereby amended to include the attached statement concerning Radiofrequency Radiation.

BRAZOS EDUCATIONAL RADIO

by:

 9/29/92

Eric W. Truax
Board Member

NON-IONIZING RADIATION OCCUPATIONAL HAZARD STATEMENT

The area around the base of the proposed antenna tower will be fenced to prevent access to the tower structure when the Brazos FM operation is broadcasting. Applicant certifies that prior to construction of its broadcast facilities it will enter into written agreement with licensees of facilities co-located on its proposed antenna tower to reduce power or cease operation of all transmitters which could affect safety of workers on the antenna structure for the entire period of time such workers are on the antenna structure.

As to its own operation, in the event that workers need to enter the restricted area or climb the tower structure, Brazos Educational Radio, Inc. certifies that it will cease operations for the entire period of potential exposure to workers and will only resume operation after verification that all personnel are clear of the restricted area and out of the vicinity of the tower structure.

**Respectfully Submitted,
Broadcast Technical, Inc.**
